Autism; Failure to Prosecute;
Failure to Follow Court Orders;
Dismissal

DECISION¹

On June 5, 2002, petitioners filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² [the “Vaccine Act” or “Program”], on behalf of John Charles Bush [“John”].

On July 3, 2012, I granted petitioners’ former attorney’s motion to withdraw from this case, and ordered pro se petitioners, Millie Hernandez-Becker and Thomas Bush to contact my chambers by August 2, 2012 to schedule a status conference. Petitioners failed to respond to my order.

¹ Because this unpublished decision contains a reasoned explanation for the action in this case, I intend to post this decision on the United States Court of Federal Claims’ website, in accordance with the E-Government Act of 2002, Pub. L. No. 107-347, § 205, 116 Stat. 2899, 2913 (codified as amended at 44 U.S.C. § 3501 note (2006)). In accordance with Vaccine Rule 18(b), petitioner has 14 days to identify and move to delete medical or other information, the disclosure of which would constitute an unwarranted invasion of privacy. If, upon review, I agree that the identified material fits within this definition, I will delete such material from public access.

² National Childhood Vaccine Injury Act of 1986, Pub. L. No. 99-660, 100 Stat. 3755 (1986). Hereinafter, for ease of citation, all “§” references to the Vaccine Act will be to the pertinent subparagraph of 42 U.S.C. § 300aa (2006).

On August 3, 2012, I issued an order to show cause.³ Pro se petitioners, Millie Hernandez-Becker and Thomas Bush, were ordered to contact my chambers, or show cause why this case should not be dismissed for failure to prosecute, by no later than September 4, 2012. To date, petitioners have failed to contact my chambers or file anything with the court.

I. The Omnibus Autism Proceeding

This case is one of more than 5,400 cases filed under the Program in which petitioners alleged that conditions known as “autism” or “autism spectrum disorders” [“ASD”] were caused by one or more vaccinations. A detailed history of the controversy regarding vaccines and autism, along with a history of the development of the OAP, was set forth in the six entitlement decisions issued by three special masters as “test cases” for two theories of causation litigated in the OAP and will not be repeated here.⁴

Ultimately, the Petitioners’ Steering Committee [“PSC”], an organization formed by attorneys representing petitioners in the OAP, litigated six test cases presenting two different theories on the causation of ASDs. The first theory alleged that the measles portion of the measles, mumps, rubella vaccine could cause ASDs. That theory was presented in three separate Program test cases during several weeks of trial in 2007. The second theory alleged that the mercury contained in thimerosal-containing vaccines could directly affect an infant’s brain, thereby substantially contributing to the causation of ASD. That theory was presented in three additional test cases during several weeks of trial in 2008.

Decisions in each of the three test cases pertaining to the PSC’s first theory rejected the petitioners’ causation theories. *Cedillo*, 2009 WL 331968, *aff’d*, 89 Fed. Cl. 158 (2009), *aff’d*, 617 F.3d 1328 (Fed. Cir. 2010); *Hazlehurst*, 2009 WL 332306, *aff’d*, 88 Fed. Cl. 473 (2009), *aff’d*, 604 F.3d 1343 (Fed. Cir. 2010); *Snyder*, 2009 WL 332044, *aff’d*, 88 Fed. Cl. 706 (2009).⁵ Decisions in each of the three “test cases” pertaining to the PSC’s second theory also rejected the petitioners’ causation theories, and petitioners in each of the three cases chose not to appeal. *Dwyer*, 2010 WL 892250; *King*, 2010 WL 892296; *Mead*, 2010 WL 892248.

³ Two copies of the order were sent to petitioners, one by certified mail and one by regular mail. Neither was returned, and presumably both were received by petitioners.

⁴ The Theory 1 cases are *Cedillo v. Sec’y, HHS*, No. 98-916V, 2009 WL 331968 (Fed. Cl. Spec. Mstr. Feb. 12, 2009); *Hazlehurst v. Sec’y, HHS*, No. 03-654V, 2009 WL 332306 (Fed. Cl. Spec. Mstr. Feb. 12, 2009); *Snyder v. Sec’y, HHS*, No. 01-162V, 2009 WL 332044 (Fed. Cl. Spec. Mstr. Feb. 12, 2009). The Theory 2 cases are *Dwyer v. Sec’y, HHS*, No. 03-1202V, 2010 WL 892250 (Fed. Cl. Spec. Mstr. Mar. 12, 2010); *King v. Sec’y, HHS*, No. 03-584V, 2010 WL 892296 (Fed. Cl. Spec. Mstr. Mar. 12, 2010); *Mead v. Sec’y, HHS*, No. 03-215V, 2010 WL 892248 (Fed. Cl. Spec. Mstr. Mar. 12, 2010).

⁵ Petitioners in *Snyder* did not appeal the decision of the U.S. Court of Federal Claims.

Thus, the proceedings in these six test cases are concluded. Petitioners remaining in the OAP must now decide whether to pursue their cases and submit new evidence on causation, or take other action to exit the Program.

II. Failure to Prosecute

It is petitioners' duty to respond to court orders. As I reminded petitioners in my August 3, 2012 order, failure to follow court orders, as well as failure to file medical records or an expert medical opinion, shall result in dismissal of petitioners' claim. *Tsekouras v. Sec'y, HHS*, 26 Cl. Ct. 439 (1992), *aff'd per curiam*, 991 F.2d 810 (Fed. Cir. 1993); *Sapharas v. Sec'y, HHS*, 35 Fed. Cl. 503 (1996); Vaccine Rule 21(b).

III. Causation In Fact

To receive compensation under the Program, petitioners must prove either 1) that John suffered a "Table Injury" – i.e., an injury falling within the Vaccine Injury Table – corresponding to one of John's vaccinations, or 2) that John suffered an injury that was actually caused by a vaccine. See §§13(a)(1)(A) and 11(c)(1). Under the Vaccine Act, a special master cannot find that petitioner has proven his case by a preponderance of the evidence based upon "the claims of petitioners alone, unsubstantiated by medical records or by medical opinion." § 13(a).

Petitioners have failed to file sufficient medical records and evidence in this case. Thus, an examination of the record did not uncover any evidence that John suffered a "Table Injury." Further, the record does not contain a medical opinion or any other persuasive evidence indicating that John's autism spectrum disorder was vaccine-caused.

Accordingly, it is clear from the record in this case that petitioners have failed to demonstrate either that John suffered a "Table Injury" or that John's injuries were "actually caused" by a vaccination. **This case is dismissed for insufficient proof and for failure to prosecute. The clerk shall enter judgment accordingly.**

IT IS SO ORDERED.

Denise K. Vowell
Special Master
