

The petitioners filed an expert report pertaining to the Krakow case, as a “Theory 2” test case, on January 8, 2008. However, the petitioners subsequently filed a motion to withdraw the Krakow case as a test case in the Omnibus Autism Proceeding. That motion was granted on April 15, 2008. It is no longer appropriate to post an expert report containing personal information about the Krakow case on this publicly accessible website. The expert report, therefore, has been withdrawn.
